

Mission

NETCAP is purposeful in sharing the Gospel as a part of building global agriculture value chains from small-scale farmer to end user.

Kingdom
Focused

- We are rooted in The Word of God, committed to advancing the Gospel, and serving Him with the gifts He has given us.

Rooted in
Humility

- We will listen to those we serve to ensure we meet their needs through education, equipping, and empowerment.

Serve Through
Relationship

- We will work to advance the Gospel of Christ by connecting people to needs and needs to those willing to serve.

Courageous,
and Curious

- We will be guided by the Holy Spirit as we courageously and curiously explore new ways to engage and serve.

Visible Lives

- We will display our love for Christ in our own lives and will be transparent in our work.
