2020 FARMING GOD'S WAY CONFERENCE

Come and learn about Farming God's Way- a tool for equipping the poor and showing the love of Jesus through agriculture.

This three day seminar will cover the three integrated spheres of influence in the FGW curriculum - Biblical, Management, and Technology.

The training includes lectures and seminars as well as hands-on training experiences designed to prepare you to implement the curriculum.

We will be offering an extended vegetable training workshop the Monday and Tuesday following the conference. The training will cover a wide variety of topics including seedling nurseries, manure based plantings, surface composting, fracturing, garden design, rotations, raised beds, sunken beds, pest management, and compost production. This training is for those who would like to go deeper in their knowledge, understanding, and application of training. It will take place at Str8 Up Ministries- and urban gardening plot and application site for the FGW curriculum. Completion of the three day FGW training is a necessary prerequisite for this training. If you have taken part in a previous FGW training you are also welcome to attending the Farming God's Way Vegetable Training.

The cost for the two-day vegetable training is \$20 per person.
